

读后续写巅峰之作

第二讲 情绪和环境描写

描写是读后续写的重要组成部分，也是拿高分的必要条件。没有足够描写的续写是一定拿不了高分的，阅卷老师一定会看你的动作、情绪、环境描写。描写的作用在于：

人物塑造：通过具体的描写展现人物的性格、外貌和情感，使人物形象更加鲜活。

环境描绘：描写帮助揭示故事的环境，增强读者的代入感。

情感传递：通过描写，作者可以传递情感、思想和主题，引起读者的共鸣。

生动性：描写使作品更加生动、真实和有趣，增强了作品的吸引力。

具体来说，如果可以细节，那就不要概括，对比以下句子：

第一组：

He was self-conceited. 他很自负。

He tilted his chin up, looking past others as if they were merely part of the scenery. 他抬起下巴，目光越过其他人，仿佛他们只是风景的一部分。

第二组：

The teacher encouraged us to have a try.

With a broad smile, the teacher swept an arm toward the challenge as if presenting a prize. “Who’s brave enough to be the first explorer?”

老师绽开一个灿烂的笑容，手臂一挥指向那个挑战，仿佛在展示一件奖品。“谁有足够的勇气，来当第一个探索者？”

这两组对比说明：不要直接下结论，讲事情，要用细节和描写去表现！

假如我们的文章只有叙事句，这篇文章就平淡似水，甚至连字数都凑不够。

这是最常见、最万能、最无脑的情绪描写，我们当然也可以有他的各种变体，比如上一讲出现的：

On spotting his teacher, with a wave of relief washing over him, he shouted for help. 一看到他的老师，一股宽慰感涌遍全身，他大声呼救。

但它的高频率使用也意味着它正在失去力量，容易让阅卷老师感到陈词滥调。

优化的核心思路是：让情绪描写更精准、更新鲜、更有机地融入情境。

1. Joy / Happiness 喜悦

- 描写一 (通过身体反应): **A smile broke across her face like sunrise**, melting away the earlier worry. (笑容如日出般在她脸上绽开，驱散了早先的忧虑。)

举例：续写中说服了某人下决心，或者在最后事情解决了。

- 描写二 (通过轻盈动作): He felt so light that he **might float away**, and an unstoppable laugh bubbled up from his chest. (他感到轻快得仿佛要飘起来，一阵抑制不住的笑声从他胸膛涌出。)

举例：一个积压在心里很久的事情结束了。比如说高考出分

- 描写三 (通过世界感知): Suddenly, the world seemed brighter, and even

the chirping of birds **sounded like a celebration**. (突然间, 世界仿佛更明亮了, 连鸟儿的啁啾也像在庆祝。)

举例: 可以用于结尾

2. Fear / Terror 恐惧

- 描写一 (通过身体僵硬): His blood **turned to ice**, freezing him to the spot, unable to move or scream. (他的血液凝固成冰, 将他冻在原地, 无法动弹或尖叫。)

举例: 被吓到了

- 描写二 (通过感官放大): Every hair on her neck stood up, and her ears **strained against the heavy silence**, hearing nothing yet fearing everything. (她颈后汗毛倒竖, 双耳在沉重的寂静中竭力倾听, 什么也没听到, 却又恐惧一切。)
- 描写三 (通过本能反应): Pure instinct took over. **His breath hitched**, and every muscle coiled, ready to run. (纯粹的本能接管了一切。他呼吸一滞, 每块肌肉都绷紧了, 准备逃跑。)

3. Sadness / Grief 悲伤

- 描写一 (通过无力的沉重): A heavy weight settled in her chest, making **each breath an effort**. (沉重的压力堵在她的胸口, 使得每一次呼吸都费力。)

举例: 主人公遇到了挫折, 这种挫折还不是描写二三那种超级大的

- 描写二 (通过空洞眼神): The light in his eyes faded, leaving behind a **hollow look** that stared right through everything. (他眼中的光芒熄灭了, 只剩下一一种空洞的眼神, 穿透一切却毫无焦点。)

举例: 主人公遇到了超级大的挫折, 比如作为自闭症患者被嘲笑、作为不擅长运动的人被孤立被歧视, 作为少数分子被丢垃圾、侮辱。

- 描写三 (通过微小动作): She wrapped her arms around herself, a quiet gesture that **spoke of a world of hurt** words couldn't reach. (她用双臂抱住自己, 这个安静的动作诉说着言语无法触及的深深伤痛。)

举例: 主人公正在独自悲伤, 下面可以跟上“我”去安慰她。

4. Anger / Rage 愤怒

- 描写一 (通过灼热感): A hot wave of anger **flushed his cheeks** and clenched his jaw so tight it ached. (一股愤怒的热浪冲上他的脸颊, 他把下巴咬得发痛。)
- 描写二 (通过视角锐化): Her vision narrowed, **focusing with crystal clarity** on the cause of her fury, blocking out all else. (她的视野收窄, 异常清晰地聚焦在令她愤怒的源头, 屏蔽了其他一切。)
- 描写三 (通过身体控制): He was trembling, but not from fear. It was the **effort of holding back** the torrent of angry words. (他在发抖, 但不是因为恐惧。那是拼命压制如潮怒言的努力。)

5. Nervousness / Anxiety 紧张

- 描写一 (通过肠胃反应): Butterflies **went to war in his stomach** as the moment of truth approached. (当关键时刻来临, 他感到胃里像有蝴蝶在打架。)
- 描写二 (通过不自觉动作): Her fingers **fidged unconsciously** with the edge of her paper, crumpling it slightly. (她的手指无意识地拨弄着纸边, 把它弄得有些皱了。)
- 描写三 (通过思维循环): "What if...?" The anxious thought **looped in his mind**, growing louder with each repetition. ("万一……?" 焦虑的念头在他脑海里循环, 每重复一次就更大声。)

6. Love / Tenderness 爱意/柔情

- 描写一 (通过温暖扩散): A warm feeling **spread through her chest**, gentle and steady like sunlight. (一股暖意在她胸膛扩散, 如阳光般温柔而稳定。)
- 描写二 (通过表情软化): His stern expression **softened around the edges**, a telltale sign that her words had touched him. (他严肃的表情边缘柔和了下来, 这是一个明显的迹象, 表明她的话触动了她。)
- 描写三 (通过保护欲): Looking at the small, trusting face, she was filled with **an overwhelming urge to protect**. (看着那张小小的、充满信任的脸, 她心中充满了一股强烈的保护欲。)

环境描写

环境描写没必要每次都写，恰当的时候再用，而且一定要服务于情节、人物、情绪。下面举一些我很喜欢的环境描写：

A **fine, cold rain** began to fall, matching the grey mood that had settled over him. (一场**细密冰冷**的雨开始落下，与他心中弥漫的灰色情绪相衬。)

人物感到很伤心的时候，安排一场雨是不错的选择。

The clock on the wall **ticked louder than usual**. She glanced at it for the third time in a minute, twisting the edge of her notebook. (墙上的钟**滴答声比平时更响**。一分钟内她第三次看向它，手指捻着笔记本的边缘。)

这个描写适用于读后续写的经典比赛等情节，比如即将上去演讲了，就把 notebook 改成 paper 通过钟声来衬托很紧张。

The air suddenly smelled sweeter, of rain-washed grass, and the birdsong no longer seemed like background noise but like **music**. (空气突然变得更甜美了，是雨后青草的味道，鸟鸣声也不再是背景噪音，而像是音乐。)

故事结尾，事情解决了，来这一句，可以代替情绪描写。

分情绪列举，每种背一句：

孤独：The empty street stretched before him, silent and endless. (空荡荡的街道在他面前延伸，寂静而无尽头。)

紧张：The air grew thick and heavy, making it hard to breathe. (空气变得浓重而沉闷，令人呼吸困难。)

伤心：A cold drizzle began to fall, soaking through his clothes and into his mood. (冰冷的细雨开始落下，浸透了他的衣服，也浸透了他的心情。)

开心：She couldn't help but smile, and even the sparrows chirping outside seemed to be celebrating with her. (她忍不住微笑起来，连窗外叽叽喳喳的麻雀也像是在为她庆祝。)

还有的时候，会不得不用情绪描写，因为外面在刮风下雨，或者下雪，或者只是晴天，也是每类一句：

Rain lashed against the windows like thousands of silver needles. (雨点如万千银针，抽打着窗户。)

Snow fell silently, blanketing the noisy world in pure, muffled white. (雪无声飘落，将喧嚣的世界覆盖在纯净、静谧的白色之下。)

Sunlight poured down, wrapping everything in a golden glow. (阳光倾泻而下，为万物裹上一层金色的光辉。)

The dark clouds rolled back, revealing patches of clean, washed blue. (乌云翻滚着退去，露出一片片被洗净的湛蓝。)
